Microsoft Dynamics 365 Supply Chain Management [MB-330]

Få den nødvendige viden til at udføre, hvordan du konfigurerer og bruger Supply Chain management. Få styr på kvalitetsstyring, intern handel og varedisponering. Lager og transportstyring, bliver også gennemgået. Kurset leder hen mod eksamen MB-330: Microsoft Dynamics 365 Supply Chain Management. Undervisningen kan foregå på engelsk.

Participant profile

You are responsible for performing discovery, capturing requirements, engaging subject matter experts and stakeholders, translating requirements, and configuring the solution and applications. You implements a solution using out of the box capabilities, codeless extensibility, application and service integrations.

Prerequisites

We recommend you have participated in our course [Introduction to Microsoft Dynamics 365 for Finance and Operations](#) or in other ways have obtained equivalent knowledge.
